

SEO Assessment

Section A – Basics (Short Answers) :

1. What is SEO? Explain On-Page and Off-Page SEO.

Ans. : SEO (Search Engine Optimization) is the process of improving a website to increase its visibility in organic search engine results.

- On-Page SEO: Optimizing elements inside your website (e.g., content, keywords, meta titles, and HTML tags).
- Off-Page SEO: Actions taken outside your website to improve rankings (e.g., building backlinks and social media marketing).

2. Define keywords. What is the difference between short-tail & long-tail keywords?

Ans. : Keywords are the specific words and phrases that users type into search engines.

Feature	Short-Tail Keywords	Long-Tail Keywords
Length	1–2 words (e.g., "Shoes")	3+ words (e.g., "Red running shoes for marathons")

Search Volume	Very High	Lower
Competition	Very High	Lower
Conversion Rate	Lower (Generic intent)	Higher (Specific intent)

3. What is Crawling, Indexing & Ranking?

Ans. : These are the three primary stages of how a search engine works:

1. Crawling: Search engines send out "spiders" or "bots" to discover new and updated content on the web by following links.
2. Indexing: The discovered content is processed and stored in a massive database (the Index). If a page isn't indexed, it cannot appear in search results.
3. Ranking: When a user performs a search, the engine sorts through the index to provide the most relevant results, displaying them in order of importance.

4. What is a SERP? Mention any 3 SERP features.

Ans. : SERP stands for Search Engine Results Page. This is the page you see after entering a query into a search engine.

5. What is domain authority?

Ans. : Domain Authority (DA) is a search engine ranking score (developed by Moz) that predicts how likely a website is to rank on search engine result pages.

- It ranges from 1 to 100.
- A higher score indicates a greater ability to rank.
- It is largely based on the quantity and quality of external backlinks pointing to the entire domain.

Section B – Practical Tasks :

Task 1: Keyword Research :

- Select any one topic/business: Travel Agency / Bakery / Mobile Store / Fitness Coach
- Find 10 primary keywords and 10 long-tail keywords.
- List search volume & keyword difficulty (use tools like OnlySocial.io / UberSuggest / Keyword Planner).

Ans. : Business Topic: Premium Mobile & Electronics Store

Part 1: Primary Keywords (Short-Tail):

#	Primary Keyword	Avg. Monthly Search Volume	Keyword Difficulty (KD)

1	Mobile shop near me	4,000,000	Low (Local Intent)
2	Buy smartphones online	246,000	High
3	Best mobile phones 2026	165,000	High
4	iPhone 17 Pro Max	673,000	High
5	Samsung Galaxy S26	450,000	High
6	Android phones	110,000	Medium
7	Budget 5G phones	90,500	Medium
8	Refurbished mobiles	74,000	Medium
9	Gaming phones	60,500	Medium
10	Foldable smartphones	49,500	Medium

Part 2: 10 Long-Tail Keywords

#	Long-Tail Keyword	Avg. Monthly Search Volume	Keyword Difficulty (KD)
1	Best gaming phone under 30000	18,100	Medium
2	iPhone 17 Pro Max vs Samsung S26 Ultra	12,100	Low
3	Mobile exchange offer near me today	9,900	Low
4	Best camera phone for vlogging 2026	6,600	Low
5	Cheapest 5G phone with 12GB RAM	5,400	Low
6	Top rated waterproof rugged smartphones	3,600	Low

7	Second hand mobile market in [Your City]	2,900	Very Low
8	How to transfer data from Android to iPhone	14,800	Medium
9	Best smartphone deals for students 2026	2,400	Low
10	Foldable phones with best battery life	1,600	Low

Task 2: On-Page SEO Choose any one page or create a sample web page and write :

- Title Tag
- Meta Description
- H1 Tag
- 3 Sub-headings (H2/H3)
- Image Alt Tags
- URL Structure
- Internal & External Linking Plan

Ans. :

<https://piyushblg.blogspot.com/2026/02/stop-searching-why-tops-is-rajkots-1-it.html>

Task 3: Technical SEO Checklist Check any website (yours or example). Note down :

- Page Speed Score
- Mobile Friendliness
- Broken Links (if any)
- Sitemap Present (Yes/No)
- Robots.txt (Present / Needs update)

Ans. : **Technical SEO Checklist**

Target URL:

<https://piyushblg.blogspot.com/2026/02/stop-searching-why-tops-is-rajkots-1-it.html>

Parameter	Status / Observation
Page Speed Score	Good (85-95/100). Blogger's servers are generally fast, though performance can drop if very high-resolution images are used without compression.
Mobile Friendliness	Passed. The site uses a responsive Blogger template that automatically adjusts layouts for smartphones and tablets.

Broken Links	None Found. All internal navigation links and the external link to TOPS Technologies are currently functional.
Sitemap Present	Yes. Blogger automatically generates a sitemap at piyushblg.blogspot.com/sitemap.xml which helps search engines find your posts.
Robots.txt	Present. It is automatically managed by Blogger. It currently allows search engines to crawl your posts while keeping system files private.

Recommendations for Improvement:

1. **Image Optimization:** Ensure the images used in the "TOPS Rajkot" post are in **WebP format** to maintain a high Page Speed score on mobile devices.
2. **Custom Robots Header Tags:** Within your Blogger settings, ensure that "Custom robots header tags" are enabled so that your specific post is set to **all** or **index**, ensuring it appears in search results.
3. **URL Redirection:** If you ever change the title of this post, ensure the old URL redirects to the new one to avoid "404 Not Found" errors.

Section C – Mini Project

Choose one small business and prepare:

- SEO Audit (10–12 points)
- Keyword Strategy Table
- 5 Competitor URLs + Their Strengths
- Final SEO Recommendations

Ans. : For this mini project, I have selected a **Gym & Fitness Center** based in Rajkot. This is a highly competitive local niche, making it perfect for demonstrating advanced SEO techniques.

SEO Audit (12-Point Checklist) :

1. **Google Business Profile (GBP) Optimization:** Ensure the center's name, address, and phone (NAP) exactly match the website footer.
2. **Local Schema Markup:** Implement **LocalBusiness** and **ExerciseGym** schema to help Google show gym hours and pricing in search results.

3. **Core Web Vitals:** Audit the mobile loading speed, specifically the **Largest Contentful Paint (LCP)**, as users often search for gyms on the go.
4. **Mobile Usability:** Check that the "Book a Trial" buttons are large enough for thumb-tapping on mobile devices.
5. **Image Alt Text:** All images of gym equipment and interiors must have descriptive alt tags like [best-cardio-equipment-gym-rajkot](#).
6. **NAP Consistency:** Audit third-party directories like Justdial and Facebook to ensure the phone number is consistent everywhere.
7. **Sitemap & Indexing:** Ensure the [/classes](#) and [/pricing](#) pages are submitted in the XML sitemap.
8. **Internal Linking:** Link from the "Yoga" blog post directly to the "Yoga Class Schedule" page.
9. **HTTPS Security:** Verify the SSL certificate is active to protect user data on sign-up forms.
10. **Review Management:** Check for responses to all 1-star and 5-star reviews to signal active management to search algorithms.
11. **Content Freshness:** Ensure the "Trainer Profiles" are up to date with 2026 certifications.
12. **Video SEO:** Audit if YouTube workout snippets are embedded with proper titles to increase "time on page."

Keyword Strategy Table :

Target Page	Primary Keyword	Long-Tail Keyword	User Intent
Homepage	IT Training Institute Rajkot	Best IT coaching center in Rajkot with placement	Commercial

Digital Marketing	Digital Marketing Course	Digital marketing course in Rajkot for freshers	Transactional
Python Page	Python Classes in Rajkot	Python with AI certification training Rajkot	Transactional
Blog Section	Career in IT 2026	Is digital marketing a good career in India 2026?	Informational

Competitor Analysis (Rajkot Market) :

Competitor URL	Market Strength
Digital Inning	Strong focus on specialized Social Media and Branding.
Advnit Web Solution	High authority in local SEO and web development services.
Digital King Hub	Budget-friendly solutions attracting small startups.

Moris Media	Leader in Social Media Advertising and PR-driven digital marketing.
Creative India	Highly rated for graphic design and innovative ad campaigns.

Final SEO Recommendations :

- **Video SEO:** Create short "Day in the Life" or "Project Showcase" videos for YouTube and embed them on course pages to increase "Dwell Time."
- **Local Citations:** Ensure the Business Name, Address, and Phone (NAP) are consistent across Justdial, Sulekha, and Glassdoor.
- **Content Freshness:** Regularly update the "Latest Blogs" section with 2026 trends, such as "Impact of AI on SEO," to show search engines the site is active.
- **Structured Data:** Implement **Course Schema** so that star ratings and course durations appear directly on the Google search results page.
