

PPC ASSESSMENT - Google Ads

Assessment

Section A – Basics (Short Answers) :

1. What is PPC? Explain with an example.

Ans. :

PPC (Pay-Per-Click) is an online advertising model where advertisers pay a fee each time someone clicks their ad.

Ex. A user searches for "wireless headphones" on Google and clicks a product listing showing price and image.

2. Difference between PPC and SEO.

Ans. :

Feature	SEO (Search Engine Optimization)	PPC (Pay-Per-Click)
Cost	"Free" clicks; requires investment in time, content, and experts.	Direct cost; you pay every time someone clicks your ad.
Speed	Slow; typically takes 3–6 months to see results.	Instant; ads can appear as soon as a campaign goes live.
Placement	Organic results (middle of the page).	Sponsored results (top or bottom of the page).
Sustainability	High; traffic continues even if you stop working on it.	Low; traffic stops the moment your budget runs out.
Targeting	Broad; based on keyword relevance and user intent.	Granular; targets by location, age, interests, and device.

Trust/Auth ority	Higher. Users often trust organic results more.	Lower. Users know they are being sold to.
-----------------------------	---	---

3. What is Quality Score? Factors affecting it.

Ans. :

Quality Score is Google's rating of the quality and relevance of your keywords, landing pages, and PPC campaigns.

Factor affecting :

1. **Expected Click-Through Rate (CTR):** How likely people are to click your ad.
2. **Ad Relevance:** How well your ad text matches the keyword searched.
3. **Landing Page Experience:** How fast, mobile-friendly, and relevant your website is once they click.

4. What is CTR? Write the formula.

Ans. :

CTR stands for Click through Rate. It is calculated by dividing the number of times a link appears on a search engine result page (impression) by the number of times it is clicked by users.

Formula :

$$\text{CTR} = \frac{\text{TOTAL CLICKS}}{\text{TOTAL IMPRESSIONS}} * 100$$

5. Why is Landing Page Quality important for PPC?

Ans. :

Creating optimized landing pages with persuasive, relevant content and a clear call-to-action, tailored to specific search queries.

Section B – Practical Tasks :
